

# Paramedical coverage and limits

IN MOST BENEFIT PLANS, paramedical coverages such as acupuncture, chiropractor, massage therapy, naturopath, physiotherapy, podiatry, and registered counselling are subject to what's called reasonable and customary limits.

### What are reasonable and customary limits?

Reasonable and customary (R&C) limits are the range of usual fees per treatment for comparable medical services in a geographic area, or the number of treatments completed within a specific timeframe. If your plan has a contractual dollar or visit limit that is less than the R&C limit, this amount will be used to determine your reimbursement.

Paramedical claims may continue to be considered as per the requirements in your contract, up to the number of visits Pacific Blue Cross considers reasonable, per year, per person.

If the number of visits exceeds this threshold, you will be asked to provide a note from your attending medical doctor\* that indicates the nature of illness and prognosis for future claims to be considered.
